from simple tasks to complex
workflows

UX Testing
Set up and run UX tests at
any scale—AI-driven, remote,
or in-person

Artificial Intelligence
Leverage AI to speed
development, enhance
creativity, and refine content

EXPERIENCE

Freelance Graphic Designer
June 2017 - Present

Affinaquest, Scottsdale, AZ
At Affinaquest, I was the sole graphic designer, supporting the marketing team
in various projects. My work ranged from a full company re-brand and website
redesign to developing new sales material, product handouts, white papers, and
event booth graphics.

MCO MyComplianceOffice, New York, NY
In my role at MCO, I managed the graphic design needs of the marketing
department. Projects included brand identity, brochures, flyers, trade show
banners, office artwork, custom icons, product diagrams, and ad campaigns.

OTTO Engineering, Chicago, IL
I collaborated with OTTO Engineering's head of marketing to refresh the
company's branding. My job included updating branding elements, creating new
product sell sheets, designing trade show booths, developing reference guides,
marketing ads, and a complete product catalog redesign.

Senior Graphic Designer, User Researcher
June 2015 - June 2017

Octiv, Inc., Indianapolis, IN
At Octiv, my primary responsibility was designing and maintaining a complex user
interface for a collaborative sales and legal document platform. I worked closely
with the product team and engineers, running regular UX tests both in-person
and remotely.

Marketing Designer & Product UI
May 2013 - June 2015

Tinderbox, Indianapolis, IN
While working with Tinderbox, I contributed to a wide range of projects, from
marketing collateral and company branding to product UI design and UX testing.
My role involved close collaboration with sales, marketing, and product teams.

Graphic Designer
May 2008 - June 2013

Sentry Data Systems, Deerfield Beach, FL
At Sentry Data Systems, I managed the visual identity across the company and
also designed a complex user interface for medical dispensation for pharmacies
and hospitals. I worked closely with Product, Marketing, Sales, and Client Services
departments to ensure visual consistency in all Sentry products and materials.
